How it works

-  **1. Verify your identity online**
If you have problems with this step, please call us at 512-610-7374.
-  **2. Answer questions online**
We'll ask you a series of questions about your household and finances so that we have what we need to prepare your return.
-  **3. Submit documents online**
Share all necessary documents (e.g. ID, W-2, 1099, 1095-A).
-  **4. Phone review**
Your tax preparer will call you and review everything with you over the phone before we start your return.
Your tax preparer will call you again to walk you through your completed return.
-  **5. Get your refund**
If you choose to file your tax return, our tax preparers will help you submit your return to the IRS.

The IRS extended the filing and payment deadline for 2019 tax returns to **July 15, 2020**. If you have not filed your 2018 or 2019 tax return, filing your 2019 return is the fastest way to receive your \$1,200+ stimulus payment from the IRS.
