

Foundation Communities **EDUCATION PROGRAMS**

Sponsorship

Hundreds of children attend our free after-school and summer learning programs at our 15 on-site Learning Centers. Our primary focus is on academic success and the children and teens we serve excel at school and maintain a B+ average or above. Volunteer support and a quiet place to focus are significant keys to success.

In addition to promoting academic success, we target childhood obesity through fun fitness activities, health and nutrition education and enrichment programs.
